With more than a century of service to people in need in communities across the country, Volunteers of America is a national, nonprofit, spiritually based organization that provides local human service programs.

Volunteers of America touches the lives of nearly 1.8 million people every year, helping abused and neglected children, youth at risk, seniors, people with disabilities, homeless individuals and families, and other persons who need an opportunity to rebuild their lives.

As a major provider of skilled long-term and short-term nursing care, assisted living, and senior living communities, we help preserve the quality of life, respect for the individual, and the highest possible level of independence.

Volunteers of America Angels Care Center serves people with chronic illnesses and other physical conditions. Our dedicated staff provides for residents' physical needs, and strives to meet the social, spiritual, intellectual, and recreational needs.

We recognize that our residents have a variety of individual needs, interests, and abilities; therefore, we respond to each resident's individuality. We believe our role is to assist, support, and promote the dignity and independence of each resident and to create opportunities for them to

make choices about their lifestyle.
